Alisa Webb

Dear Parents,

It is important that we flatten-the-curve, so we keep our community safe and healthy. The terms "flatten-the-curve" and "social distancing" are now a part of our lives. As sad as that makes us, now more than ever, we need to do our part. It hurts us all to think that we may not be together, in our school, for the end of the year. As I am typing this letter, we know in the state of Texas, we will not be back in school until May 4, and that date may be extended.

Stay home and enjoy your families, while we get through this.

You and your children are doing a great job. I appreciate you all.

Reminders:

- Please check the school's web page and my school web page often, especially at the beginning of each week. Look for current school information and current Parent Guide and Newsletter on my page.
- Please check our class Seesaw app, as often as you can. If you are having trouble finding the student Activities, let me know.
- For attendance purposes, our school needs; a Seesaw message, text, and/or call from you to me, ideally each day (Monday-Friday). Just do the best you can. It is very important for our school. Life is different right now, we do not expect perfection...just try.
- This week (Good Friday, April 10) and next week (Scheduled school holiday, Monday, April 13), I will not be assigning a Seesaw activity, taking attendance or giving suggestions in the Parent Guide. Celebrate these special days with your family. It will be different for us all. But find joy and peace in your faith.

The below link is from the San Angelo Region Center. It is a very good resource to find more learning opportunities for your child. This site covers all academic areas. I looked through the Language, Science and Math sections. It will let you select "K-2nd grade" to help narrow your search. I found some really great ideas.
