School Holiday

Reminder:

No School  
this  
Friday,  
Jan. 17!

Things are going great in the Kindergarten room. I can hardly believe that it is almost the middle of January.

I have been so proud of how many kindergarten students are able to read our sight or high-frequency words. Keep up the good work!! You will find new words added to our list on the back of this newsletter. Research has shown that students will have more success in first grade, if they are able to read 100 words by the end of kindergarten. Having said that...to help your child get ready for next year, please help your child practice our sight words at least three times a week. If you know of any educational apps that are appropriate for helping children learn sight words, or any other academic subject, would you please let me know. I will share this information with parents.

One app that I know parents have used with success is Quizlet. THANKS (:

This week I will be assessing students for the Middle-of-the-Year Benchmarks.

If your child does not have a water bottle at school, please send one as soon as possible.
